## SUMMARY

---

Innovative software engineer and entrepreneur with a strong foundation in full-stack development and a proven track record of building scalable e-commerce solutions, leading teams, and reducing security vulnerabilities.

## WORK EXPERIENCE

---

### [Allconeq](#)

Founder

Apr. 2024 - Present

Ulaanbaatar, Mongolia

- Established Allconeq, a Mongolian software company focused on creating innovative e-commerce solutions for diverse business needs.
- Launched Meat.mn, Mongolia's first multi-vendor meat marketplace, built on Medusa.js to directly connect local herders and farmers with consumers.
- Led the development of Meat.mn's infrastructure from the ground up, implementing features like multi-language support, secure payment integration, review, and a vendor management system to support a smooth, scalable user experience for buyers and sellers alike.

### [Cherry Labs](#)

Frontend Developer

Oct. 2022 - Dec. 2023

Remote

- Developed Cherish, a web platform for artists using Next.js and Tailwind CSS, enabling artwork uploads and sales with secure authentication. Implemented best practices and conducted audits, achieving a 30% reduction in vulnerabilities and ensuring compliance with security standards.
- Designed and implemented Cherry Wallet, a Chrome extension for secure crypto transactions with Polkadot API integration.

### [Gobi Cashmere](#)

Frontend Developer

July 2021 - Sep. 2022

Ulaanbaatar, Mongolia

- Migrated Gobi Cashmere's e-commerce sites from Gatsby.js to Next.js, reducing page load times by 30% and increasing user engagement by 25%.
- Mentored junior developers, improving code quality by 20% through best practices and collaboration.
- Enhanced website performance with image optimization, HTTP request minimization, and caching, leading to a 25% improvement in Lighthouse scores.

## TECHNICAL SKILLS

---

**Programming Languages:** HTML/CSS, Javascript, Typescript, Python, Java

**Front-End:** React, Redux, Angular, Next.js, Gatsby.js, GraphQL, Tailwind CSS

**Back-end:** Node.js, Express, MongoDB, PostgreSQL, Firebase, Redis, MySQL, RESTful APIs, WebSockets
